EXPERIENCE

ASSOCIATE DATA ENGINEER, CENTRO

6/2015 — Present

I design and develop digital advertising tools from within the Data Science team. I work closely with the scientists to productize their algorithms, creating tools for internal teams or commercial products.

My responsibilities involve defining products, drawing mockups, and creating functional prototypes.

UI/UX DESIGN INTERN, METRONOME SOFTWARE

6/2014 — 10/2014

I worked on the App Store and a mobile/desktop Maps tool for the U.S. Dept. of Defense. Responsibilities included creating mockups, evaluating/designing interfaces, and implementing designs with HTML/CSS/Python.

SOFTWARE DEVELOPMENT INTERN, BROADCOM

6/2013 — 9/2013

I created an internal tool that automated/tracked reporting, eliminating several meetings/e-mails per week. I also wrote a shell script that automated a data conversion/validation process.

EDUCATION

UNIVERSITY OF CALIFORNIA, IRVINE

2011-2015

B.S. in Informatics: Human-computer Interaction
